I      love you          there's nothing to hide
     D       A                  G#
It's better    than burning inside

I've said it       what more can I say

chorus:

```
                A              Em                    A
I've tried to drum up a  phrase that would sum up
D           F#m      Bm      F#m
All that I feel for  you
      Bm                F#m          Bm              F#
But, what good are phrases, a thought that amazes
    Em                        C
Is you love me and it's heavenly
```

v3:

```
    A          C#m  Em

But one thing     I  want you to know
     Em                 Bm              F#
I've loved you since heaven knows when
F#m                  A       Em
There, I've said it again
```

ending:

```
    A          C#m  Em
Forgive me       for wanting you so
     D           A    G#
But one thing     I  want you to know
     Em                 Bm              F#
I've loved you since heaven knows when
F#m                  A       D    A
There, I've said it again
```
