Intro: C    A#    Am    F    C    F

G                        F    C
I can't light no more of your darkness
F                                      G
All my pictures, seem to fade to black and white
G                                     F    C
I'm growing tired, and time stands still before me
F                             G
Frozen here, on the ladder of my life
G                          F    C
It's much too late to save myself from falling
F                                   G
I took a chance and changed your way of life
G                      F    C
But you misread my meaning when I met you
F                        C              G
Closed the door and left me blinded me by the light
C
Don't let the sun go down on me
Am                                       D7
Although I search myself, it's always someone else I see
C                               Dm      G           C    A#
I'd just allow a fragment of your life-------- to wander free
      Am          F            Dm        F      C
But losing every-thing is like the sun going down on me

C    A#    Am    C    F

G                        F      C
I can't find, oh, the right ro-mantic line
F                      G
But see me once, and see the way feel
G                              F              C
Don't discard me, baby don't just be-cause you think I mean you harm
F                   C                  G
But these cuts I have, they need love to help them heal
C
Oh don't let the sun go down on me
Am                                       D7

C                               Dm      G           C    A#
I'd just allow a fragment of your life--- ---- to wander free
      F                          Dm C    F      C
But losing everything is like the sun going down on me
