The Big Bang Theory (Ed Robertson / Steven Jay Page)

Our whole universe was in a hot dense state,
 Then nearly fourteen billion years ago
 Expansion started. Wait...
 The Earth began to cool,
 The autotrophs began to drool,
 Neanderthals developed tools,
 We built a wall (we built the pyramids),
 Math, science, history, unraveling the mysteries,
 That all started with the big bang!

"Since the dawn of man" is really not that long,
 As every galaxy was formed
 In less time than it takes to sing this song.
 A fraction of a second
 And the elements were made.
 The bipeds stood up straight,
 The dinosaurs all met their fate,
 They tried to leap but they were late
 And they all died (they froze their asses off)
 The oceans and Pangea
 See ya, wouldn't wanna be ya
 Set in motion by the same big bang!
 It all started with the big BANG!

It's expanding ever outward but one day
 It will pause and start to go the other way,
 Collapsing ever inward, we won't be here,
 It won't be heard
 Our best and brightest figure that
 It'll make an even bigger bang!

C D G D Em (2x)

Australopithecus would really have been sick of us
 Debating how we're here,
 They're catching deer (we're catching viruses)
 Religion or astronomy,
 Descartes or Deuteronomy
 It all started with the big bang!
 Music and mythology, Einstein and astrology
 It all started with the big bang!
 It all started with the big BANG!

Gm C
Well you, woke up this morning, got yourself a gun
Gm7 C
Your mama always said you'd be the, chosen one
Gm C
She said, you're one in a million you've got to, burn to shine
Gm7 C
But you were, born under a bad sign with a blue moon in your eyes
Gm C
And you, woke up this mornin, all that love had gone
Gm7 C
Your papa never told you about, right and wrong
Gm C
But you're looking good, baby. I believe you're feeling fine, shame about it
Gm7 C
Born under a bad sign with a blue moon in your eyes, let's sing it now

Spiderman Theme Song (Bob Harris / Paul Francis Webster)

Am
Spiderman, Spiderman, does whatever a spider can
Dm **Am**
Spins a web any size, catches thieves just like flies
E7 **Am**
Look out, here comes the Spiderman

Am
Is he strong? Listen, bud, he's got radioactive blood
Dm **Am**
Can he swing from a thread? Take a look overhead
E7 **Am**
Hey, there! There goes the Spiderman

G7 **C** **E7** **Am**
In the chill of the night, at the scene of a crime
G7 **C** **Dm** **E7**
Like a streak of light he arrives just in time

Kazoo verse:

Am
Spiderman, Spiderman, friendly neighborhood, Spiderman
Dm **Am**
Wealth and fame, he ignores, action is his reward
E7 **Am**
Look out, here comes the Spiderman

Am
Spiderman, Spiderman, friendly neighborhood, Spiderman
Dm **Am**
Wealth and fame, he ignores, action is his reward
E7 **Am** **E7** **Am**
To him, life is a great big bang up, whenever there's a hang up,
E7 **Am**
You'll find the Spiderman
E7 **A9 (played like E7, but lift middle finger)**
You'll find the Spiderman!

Dm **G7** **C** **Am7** **A7**
 The losing card I'll someday lay, so this is all I have to say .

Refrain

Based on a real-life cowboy, sheriff, US Marshall, attorney, and district attorney, Disney ran the 10-part serial from 1958-1960. In 1966, a compilation of episodes was released as a film 'Elfego Baca: Six Gun Law.' He was known as 'The Man Who Couldn't Be Killed' after surviving 'The Frisco Shootout' in which over 4,000 rounds were fired.

One often-told story says that when he was practicing law in Albuquerque, Baca received a telegram from a client in El Paso, Texas. "Need you at once," it said. "Have just been charged with murder," to which Baca is supposed to have responded: "Leaving at once with three eyewitnesses."

John Horton Slaughter (1841-1922) was a cattleman, Texas Ranger, and sheriff, and among his other pursuits, he was a prominent poker player. One writer called him "the meanest good guy who ever lived."

In real life, John Slaughter's foreman was killed when the foreman's horse was shot and fell on him. The shooter was Sheriff Elfego Baca, who was charged with murdering the foreman. He was acquitted.

John Luther "Casey" Jones (March 14, 1863 – April 30, 1900) was an engineer for the Illinois Central Railroad who was killed when his passenger train collided with a stalled freight train at Vaughan, Mississippi. He was driving the powerful Engine No. 382, known as "Cannonball", on passenger service between Memphis and Canton, MS, one link of a four-train, high-speed run between Chicago and New Orleans.

When the lights on the caboose of the stalled freight train were spotted, Jones ordered his fireman to jump, then reversed the throttle and slammed the air brakes into emergency stop, but the engine plowed through several loaded freight cars before derailing. He had been able to reduce his speed from 75 miles per hour to about 40 miles per hour before the impact. His exceptional skill at slowing the engine saved the lives of his passengers at the cost of his own. [Casey Jones](#), Wikipedia.

The song "The City of New Orleans" was also about the Illinois Central's Chicago to New Orleans service.
