(Sherwood Schwartz & George Wyle, 1964)

The Ballad of Gilligan's Island by The Wellingtons & The Eligibles

**Intro:** Strum in on Am

Am G Am G  
Just sit right back and you'll hear a tale, a tale of a fateful trip,

Am G F G Am  
That started from this tropic port, a-board this tiny ship.

Am G Am G  
The mate was a mighty sailin' man, the skipper brave and sure,

Am G F G Am F G Am  
Five passengers set sail that day, for a three hour tour, a three hour tour.

Am G Am G  
The weather started getting rough, the tiny ship was tossed.

Am G  
If not for the courage of the fearless crew,  
F G Am F G Am  
The Minnow would be lost, the Minnow would be lost.

Am G Am G  
The ship's aground on the shore of this un-charted desert isle,

Am G Am G  
With Gilligan, the Skipper, too, the Millionaire and his wife,  
Am G Am G F G Am  
The movie star...the Professor and Mary-Ann here on Gilligan's Isle!

Am G Am G  
So this is the tale of our castaways, they're here for a long, long time.

Am G F G Am  
They'll have to make the best of things, it's an uphill climb.

Am G Am G  
The first mate and his skipper, too, will do their very best,  
Am G F G Am  
To make the others comfortable, in the tropic island nest.

Am G Am G  
No phones, no lights, no motor cars, not a single luxu-ry.

Am G F G Am  
Like Robinson Cru-soe, it's primitive as can be.

Am G Am G  
So join us here each week my friend, you're sure to get a smile.

From seven stranded castaways, here on Gilligan's Isle,  
F G Am F G Am Am

The Big Bang Theory (Ed Robertson / Steven Jay Page)

**C D G D Em**  
 Our whole universe was in a hot dense state,  
**C D**  
 Then nearly fourteen billion years ago  
**G D Em**  
 Expansion started. Wait...  
**C D**  
 The Earth began to cool,  
**G D Em**  
 The autotrophs began to drool,  
**C D**  
 Neanderthals developed tools,  
**G D Em**  
 We built a wall (we built the pyramids),  
**C D G D Em**  
 Math, science, history, unraveling the mysteries,  
**C D G**  
 That all started with the big bang!

**C D G D Em**  
 "Since the dawn of man" is really not that long,  
**C D**  
 As every galaxy was formed  
**G D Em**  
 In less time than it takes to sing this song.  
**C D**  
 A fraction of a second  
**G D Em**  
 And the elements were made.  
**C D**  
 The bipeds stood up straight,  
**G D Em**  
 The dinosaurs all met their fate,  
**C D**  
 They tried to leap but they were late  
**G D Em**  
 And they all died (they froze their asses off)  
**C D**  
 The oceans and Pangea  
**G D Em**  
 See ya, wouldn't wanna be ya  
**C D G**  
 Set in motion by the same big bang!  
**C D Am7**  
 It all started with the big BANG!

**D G Em Am7**  
 It's expanding ever outward but one day  
**D G Em Am7**  
 It will pause and start to go the other way,  
**Am7 D Am7**  
 Collapsing ever inward, we won't be here,

 It won't be heard  
**Am7 G**  
 Our best and brightest figure that  
**C D**  
 It'll make an even bigger bang!

 Australopithecus would really have been sick of us

Based on a real-life cowboy, sheriff, US Marshall, attorney, and district attorney, Disney ran the 10-part serial from 1958-1960. In 1966, a compilation of episodes was released as a film 'Elfego Baca: Six Gun Law.' He was known as 'The Man Who Couldn't Be Killed' after surviving 'The Frisco Shootout' in which over 4,000 rounds were fired.

One often-told story says that when he was practicing law in Albuquerque, Baca received a telegram from a client in El Paso, Texas. "Need you at once," it said. "Have just been charged with murder," to which Baca is supposed to have responded: "Leaving at once with three eyewitnesses."

John Horton Slaughter (1841-1922) was a cattleman, Texas Ranger, and sheriff, and among his other pursuits, he was a prominent poker player. One writer called him "the meanest good guy who ever lived."

In real life, John Slaughter's foreman was killed when the foreman's horse was shot and fell on him. The shooter was Sheriff Elfego Baca, who was charged with murdering the foreman. He was acquitted.

**D7 G**

When Casey takes the throttle for another run. **Chorus**

**J**ohn Luther "Casey" Jones (March 14, 1863 – April 30, 1900) was an engineer for the Illinois Central Railroad who was killed when his passenger train collided with a stalled freight train at Vaughan, Mississippi. He was driving the powerful Engine No. 382, known as "Cannonball", on passenger service between Memphis and Canton, MS, one link of a four-train, high-speed run between Chicago and New Orleans.

When the lights on the caboose of the stalled freight train were spotted, Jones ordered his fireman to jump, then reversed the throttle and slammed the air brakes into emergency stop, but the engine plowed through several loaded freight cars before derailing. He had been able to reduce his speed from 75 miles per hour to about 40 miles per hour before the impact. His exceptional skill at slowing the engine saved the lives of his passengers at the cost of his own. [Casey Jones](#), Wikipedia.

The song "The City of New Orleans" was also about the Illinois Central's Chicago to New Orleans service.
