# Andy Griffith "Fishin' Hole" Earle Hagen and Herbert Spencer

A D A D A A B7 E7  
C'mon take down your fishin' pole, and meet me at the fishin' hole  
A D A D A B7 E7  
We may not get a bite all day, but don't you rush away  
A D A D A A B7 E7  
What a great place to rest your bones, and mighty fine for skippin' stones  
A D A D A E7 A  
You feel fresh as a lemonade, a-settin' in the shade

D A D A D A B7 E7  
Whether it's hot, whether it's cool Oh what a spot for whistlin' like a fool  
A D A D A A B7 E7  
What a fine day to take a stroll, and wander by the fishin' hole  
A D A D A E7 A  
I can't think of a better way, to pass the time of day

D G D G D D E7 A7 D G D G D A7 D A/ E7/ E7/ A/ E7/ E7  
(Whistling) Ba-da-bum-bum-bum, (repeat it)

A D A D A A E7 E7  
We'll have no need to call the roll, when we get to the fishin' hole  
A D A D A B7 E7  
There'll be you, me, an' old dog Trey, to doodle time away.  
A D A D A A E7 E7  
If we don't hook, a perch or bass, we'll cool our toes in dewy grass  
A D A D A E7 A  
Or else pull up a weed to chew, And maybe set and jaw

D A D A D A B7 E7  
Hangin' around, takin' our ease, watchin' that hound a-scratchin' at his fleas  
A D A D A A E7 E7  
C'mon take down your fishin' pole, and meet me at the fishin' hole  
A D A D A E7 A  
I can't think of a better way to pass the time of day

## The Big Bang Theory (Ed Robertson / Steven Jay Page)

**C D G D Em**  
Our whole universe was in a hot dense state,

**C D**  
Then nearly fourteen billion years ago

**G D Em**  
Expansion started. Wait...

**C D**  
The Earth began to cool,

**G D Em**  
The autotrophs began to drool,

**C D**  
Neanderthals developed tools,

**G D Em**  
We built a wall (we built the pyramids),

**C D G D Em**  
Math, science, history, unraveling the mysteries,

**C D G**  
That all started with the big bang!

**C D G D Em**  
"Since the dawn of man" is really not that long,

**C D**  
As every galaxy was formed

**G D Em**  
In less time than it takes to sing this song.

**C D**  
A fraction of a second

**G D Em**  
And the elements were made.

**C D**  
The bipeds stood up straight,

**G D Em**  
The dinosaurs all met their fate,

**C D**  
They tried to leap but they were late

**G D Em**  
And they all died (they froze their asses off)

**C D**  
The oceans and Pangea

**G D Em**  
See ya, wouldn't wanna be ya

**C D G**  
Set in motion by the same big bang!

**C D Am7**  
It all started with the big BANG!

**D G Em Am7**  
It's expanding ever outward but one day

**D G Em Am7**  
It will pause and start to go the other way,

**Am7 D Am7**  
Collapsing ever inward, we won't be here,

**D**  
It won't be heard

**Am7 G**  
Our best and brightest figure that

**C D**  
It'll make an even bigger bang!

**C D G D Em (2x)**

**C D G D Em**  
Australopithecus would really have been sick of us

**C D**  
Debating how we're here,

**G D Em**  
They're catching deer (we're catching viruses)

**C D**  
Religion or astronomy,

**G D Em**  
Descartes or Deuteronomy

**C D G**  
It all started with the big bang!

**C D G D Em**  
Music and mythology, Einstein and astrology

**C D G**  
It all started with the big bang!

**C D G**  
It all started with the big BANG!
